## How To Order

Call free on...  
**1 800 252-872 City**  
**1 800 670-572 Parramatta**

### Do you have a Credit Card ?

If you have a credit card, you can purchase goods over the phone from any phone in Australia. We accept Bankcard, Visa, Mastercard and American Express for phone orders. This is the quickest method of buying and your order will usually leave that same day. It's a free call to order from outside the 02 area code, just dial 1 800 252-872 from 10am, Monday to Saturday. Please have your credit card handy. NB: Minimum phone order is \$20.00 plus freight.

### School and church orders

Most schools and churches automatically qualify for an account at Venue Music. Simply fax or post us your order form in the usual fashion. We will then despatch your order with an invoice attached. For more info call.

### Mail ordering explained

If you don't have a credit card, mail ordering or direct bank deposit ( see below ) are the next most convenient methods to order. All you have to do is write us a letter describing what you want and include your delivery address and telephone number. If a small delivery charge is needed, call us and we will give you an immediate quote. You can pay by personal cheque, bank cheque, credit union cheque, money order or postal order. Never ever send cash in the post. Please call us if you need more information.

NB: All personal or company cheques will be cleared before goods will be despatched. This can take up to 10 working days. Send a bank cheque if you need your goods faster. Call if you need more information.

### FAX ordering

Fax ordering is ideal for schools, churches or other institutions and is open 24-hours a day, 7-days a week. Please don't forget to include your delivery details. Our fax numbers are....

**City (02) 9267-7034, Parramatta (02) 9635-3051.**

### Direct Bank Deposit

This is the next quickest method of ordering if you don't have a credit card. Your order will usually leave the same day. If you have an ANZ Bank in your town or city, you can deposit the money directly into our account. Just give us a call and we will give you the details needed to complete your transaction.

### 3 month layby with a 20% deposit

We offer a 3 month interest free layby on most items we sell. All we require is a 20% deposit. Unfortunately on certain sale items we are unable to offer this facility. We happily run laybys for country customers just give us a call for more details.

## How We Deliver ...so darn fast !!

**We deliver Australia wide...everyday !**

### Fast, 100% safe delivery is guaranteed

Your order is important. It doesn't lie around in a pile gathering dust. Over 90% of all orders are shipped the same day. We very carefully pack each item and all goods travel fully insured to your home or workplace. We are experts at safe delivery and have delivered 1,000's of guitars, amps, keyboards, mikes, drums etc etc to customers in every town, village and city in every Australian state and territory. Your goods WILL always arrive safe and sound every time from Venue Music, we guarantee it. Give it a try and save.

### Free C.O.D. Delivery

We offer fast free COD ( cash on delivery ) in the Sydney metropolitan area only for orders over \$200.00. Only cash or bank cheque payment is acceptable for COD delivery. Please call your closest store to arrange it with the manager.

### Tax Free for Schools and Churches etc

The tax free prices you see listed are for schools and churches etc. who are exempt from Government Sales Tax. We do enormous school and church business into every State and Territory. Most schools and churches automatically qualify for a 30-day account. Please just fax or post us an official order. We will then despatch your goods with an invoice attached. Please call if you need any further details on how to buy tax free.

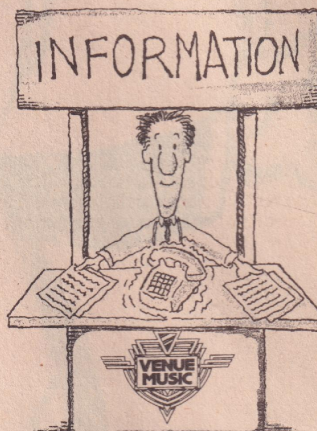

### Duty Free....City store only !

Yes you can buy most catalogue items duty free and save up to 40% off normal retail prices. Just like buying a camera or a watch etc. Duty Free shoppers must visit our City store to make their purchase. All we need is a copy of your passport and ticket so we can process the sale. Just call in to our Drufft St Sydney store 6-days a week from 10am. Don't forget your documents, no documents, no sale. Them's the rules.

### AGC No deposit finance

No money, no problem. We can arrange instant, no deposit finance to approved purchasers. Ask about our 3 month interest free terms. AGC finance is only available to personal shoppers but we can take AGC Creditline card over the phone. Please call for more information from 10am, 6-days a week.

## How We Help

### Australia's best prices

Great prices are our prime objective. We know that you want the best deal you can get and we try very hard to make it happen. Remember our pricing policy means that if you get offered a better price call us before you buy and we'll see if we can beat it to make you happy. **We won't be undersold on anything !**

### Australia's biggest range

We have over \$2 million worth of stock ready for immediate delivery. Australia's largest range of most major product lines. No more disappointment. No more.... "I can get one in for you mate". We have tons of stock on display and a warehouse full of back up stock. People visit our stores and walk around with their tongue hanging out. Come and see for yourself !

### Australia's best service

Our staff are the best in the industry. You will not find more helpful or more knowledgeable people. All our staff are musicians who have had real stage and studio experience so they actually know what they're talking about. We offer honest advice without attitude to everyone we deal with. Whether you're a pro muso or someone buying their first guitar, you will be served in exactly the same way. We want your business and we'll work hard to get it and to keep it.

### Australia's best customers

Yes you...without customers we wouldn't have a Venue Music and you wouldn't be getting this catalogue. Our customers are important and the best advertising for any business is a satisfied customer. By the way, if you have a friend who would like a catalogue, give us a call.

### Australia's best quality

We only sell quality, we only recommend quality and we only stock quality. If you find a product in this catalogue or on the shelves of our shops you can be assured that it is the best quality product you will find for the money. Our stock is carefully selected. We are not interested in rubbish.

This catalogue is produced in good faith. However due to circumstances beyond our control some items may be sold out or unavailable by the time you read this information. If this occurs Venue Music will make every effort to supply you with goods as soon as possible at the original advertised price should they become available again. All prices in this catalogue are subject to change without notice. Venue Music will not be held responsible for any errors in pricing, illustration or description contained in this catalogue. ### Pedal hints you may find helpful...

If you have any effect pedal that gives you a volume or gain boost like a Distortion or Overdrive pedal...you should always drive these into your clean effects like a chorus, a flanger or your digital delay etc.

This almost always results in a better, fatter sound with less unwanted noise. Effect pedals also work much better and quieter with a mains adaptor rather than on 9 volt batteries. Call if you need help.

## Zoom 3030 Guitar Multi-FX

**\$599**

Free Delivery

Built-in rocker pedal. Use for wah-wah, volume, 'whammy' style pitch-shifting and more insane control for maximum expression in your playing.

- 32 effects !
- 7 at once !
- 28 presets !
- 28 user sounds !
- Rocker pedal !
- Guitar tuner !
- Hot overdrives !
- Noise reduction !

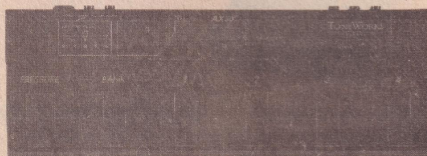

ZOOM have done it again with the amazing new 3030 multi-effects for guitar. This thing is loaded with effects muscle that would have cost you around \$2000 a year or two ago. 32 rack-quality effects plus a total of 56 memories on board to store your sounds in. The built-in expression pedal on board allows you full control over wah-wah, volume, pitch shifting as well as bringing in more distortion gain, more reverb, more delay etc and because the pedal is located AFTER the eq module on-board it doesn't impair the depth and quality of the reverb effects...it just sizzles straight out of the box !

You also get pre and post eq for flexible distortion wizardry from 8 different distortion variations including vintage type overdrive, a big filthy 'fuzz', hard blues overdrive as well as super high-gain metal distortion. The new 3030 is fully packed with heaps of clean 'spacy' effects like Slow Attack, Super bender, Pitch Delay, Ping-Pong Delay, Auto Pan, Stereo Chorus, Flanger, Phaser, Tremelo, 2 different reverbs plus more.....it's LOADED...but wait, there's even more...

What about an amp simulator with 3 settings, a built-in automatic chromatic tuner, a free power supply and free Aussie wide 12 month warranty with our famous 10-day money back satisfaction guarantee for all phone and mail order customers. This means that you get 10-days from the day of delivery to fully test any effects unit you bought in your own environment and in your own time. If you're not 100% satisfied you can return it for exchange or a full refund...beat that !

You see the difference with Venue Music is that we want you to be 100% satisfied with what you buy.

## KORG AX-30B Hot Bass Multi-Effects

## RP-10 Guitar Multi-Effects

**SALE \$1189**

**" The RP-10 will floor you "**

When it comes to sounds, features and performance flexibility the RP-10 is the most powerful floor guitar preamp processor on the market. Full rack-mount quality with the convenience of floor operation.

The RP-10 starts with a potent front end analog preamp section including a compressor and 3 individual distortions. Combine this with a 4-band fully parametric eq and 10 cabinet simulator settings and you get a range of guitar tones to copy almost every amp ever made from Fender 'Blues' through to flame-throwing Marshall stacks on 11... But wait...there's more....let's more !

With the award winning S-DISC processing engine under the hood the RP-10 also carries the same high quality effects found in DigiTech's studio processors. This means you get sensational chorus, flanging, phasing, pitch-shifting, Whammy, tremelo, heaps of cool clean reverbs and sparkling delays...plus more.

As if this wasn't enough the built-in controller pedal allows you to take total control over your sound. Not only can you wah-wah, you can pitch bend up or down, you can add more delay or reverb or more distortion. Endless sound possibilities at your feet.

You also get a built-in chromatic tuner with drop tuning, complete midi capability, 200 programs on board (100 preset, 100 user programmable). The RP-10 is way cool, you won't regret this baby. 12 months Australia wide warranty and check out our great price on a unit that was elsewhere \$1699. Call and arrange fast home delivery anywhere !

### 100w Valvestate Stacks SALE \$1599 SAVE \$450

This is a great deal on a great stack...a full 100 watt Marshall stack featuring the all new VS-100H head now with 3-channels so you can pull every possible sound you ever wanted and pump it to the max through your 160 watt Marshall quad box. This package saves you a monster \$450 and we even throw in a free Marshall footswitch so you can access all 3 channels on the head while you're playing live !

The switching between Clean, Overdrive 1 and Overdrive 2 makes this stack ideal for the working guitar player looking for more versatility. You can play clean, you can play 'bluesy' dirty, you can play pumpin high energy rock or you pull the best heavy metal sound wall, this stack will do it all, night after night, year after year ! You also get separate reverb controls for both Clean and Overdrive channels and the new Power Dimension switch is specially designed to duplicate at low volume the extra tube saturation found when playing with the amp at 11. There is simply nothing else on the market that can touch this deal on such quality.

Let us deliver you a Valvestate stack and give you 10-days to check it out in your own home or on the gig. Our Money Back satisfaction guarantee means that if you're not 100% satisfied we will take it back for a full refund of the purchase price. Call for more details.

## "Our Fender promise to you..."

"We want your Fender business from anywhere you live. I know you may think it's a risk buying an expensive guitar that you haven't yet played. I urge you not to worry, here's why. No other store in Australia will offer you better guitars than ours. We do NOT just ship guitars to you willy-nilly. Every guitar is professionally set-up by our guitar technicians and is guaranteed to play perfectly...I'll say it again...**PERFECTLY!**

We try harder with our guitars because we know that if you're not 100% satisfied, you can send it back! We insist you are thrilled with your new Fender so we take extra care to make sure you are. If you want a certain gauge of strings on it...tell us and we'll do it for free. It doesn't matter if you live in Tamworth or Tasmania we will safely and quickly send you the BEST Fender guitar you will get your hands on. If you're in the market today or in the future please test the difference in a Fender guitar from Venue Music."

## KAWAI

G-Mega Synth Module SALE!

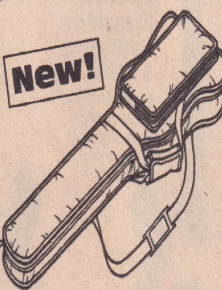

Only 10 left so get into them fast!

Another Venue Music buying power deal that saves you \$600 on the top quality Kawai G-Mega Midi Sound Module! General Midi, while being a great tool for musicians has often had it's drawbacks. Affordable GM modules are not programmable, have a maximum of 16 parts and have limited sound sets...until now! Introducing the best value General Midi module deal available, full stop! The Kawai G-Mega grants you access to a huge library of great sounds in an affordable, compact half rack unit. You get 128 General Midi voices, 128 SP (Special Preset) voices (with some extremely cool samples) and...yes...a FULLY PROGRAMMABLE user bank, with 128 patch memories AND 128 user programmable drum/percussion sounds. Synth freaks can go mad on the G-Mega, because programming gives you access to hundreds of professionally sampled waveforms and resonant filters on every voice (these are great for creating exciting techno synth sounds, or for tweaking and twisting drum sounds - Perfect for ambient or techno on a budget) Next in line in the signal chain is the internal digital reverb which adds a professional polish to any track - you have 6 types to choose from, and each channel on the module can have it's own amount of reverb...way cool! Lastly for it's output, the G-Mega uses top quality converters to guarantee sounds with heaps of dynamic range and punch! Creating complex 'fat' orchestrations is a breeze with the G-Mega's HUGE 32 fully multi-timbral parts. This G-Mega deal is limited to 10 units only and includes free home delivery anywhere in Australia with a 12 month Aussie wide warranty. Call and ask about our 10-day money back guarantee so you can test out the amazing G-Mega in your own time and in your own environment. Power Supply is included. This is a great deal, so get in now before you miss out

Guitar multi-effects save \$300!

Part of Korg's 'Toneworks' series the AX30G delivers you 28 HUGE rack quality guitar effects plus an automatic chromatic tuner all for just \$599.00 A saving of \$300.00 Korg had some of the world's top players assist them in designing the effects in the AX30G and they paid particular attention to the overdrives and distortions as many of the Japanese multi-effects have been a bit 'wimpy' in that area. As a result the AX30G is virtually exploding with effects power and the built-in pressure pedal (see above) gives you expressive control over wah-wah, whammy style pitch-bending, introducing more distortion or reverb etc etc you just won't believe the added expression the AX30G will bring to your playing. Choose from the 66 great preset sounds already inside or programme your own. Remember you have 28 different effects to choose from and combine together to create a truly unique library of your own. 12 months Aussie wide warranty and free Aussie home delivery included in price. Call and ask about 10-day money back satisfaction guarantee so you check out the AX30G in your time and environment.

### COMMON QUESTIONS ABOUT MIKES & WIRELESS

**What is the difference between dual aerial (diversity) wireless systems and single aerial (non diversity) wireless systems ?**

The receiver part of a modern wireless system will have one or two aerials (see T3 and T4 receivers on left). One receiver is included in a non-diversity system, two in a diversity system. Both types will work equally as well under almost all circumstances...99.8% of the time. Sometimes on the odd occasion a single aerial system may suffer for a tiny fraction of a second a 'dropout' caused by reflected signal interference. The 2 aerial or diversity systems will do a better job of resisting signal interruptions. The dual aerials act as a sort of 'insurance policy', since it is very unlikely that the signal to both aerials will be interrupted at the same instant. Many people mistakenly believe that a dual aerial system 'sounds' better, this is simply not true. They both 'sound' exactly the same.

**What is the difference between a dynamic mike and a condenser mike ?**

Dynamic mikes like the SM-58, BG3.0 etc use a simple magnet and coil of wire to convert sound to energy. A bit like a speaker in reverse. Good quality dynamic mikes offer very good sound quality, are very rugged and will tolerate years of rough handling and exposure to extreme temperature and humidity. Condenser mikes use an ultra-thin piece of plastic, metal or ribbon stretched above a piece of flat metal or backplate. This assembly is kept electrically charged. A change in this voltage is caused by soundwaves, this is then preamplified inside the mike. Condenser mikes do offer significant benefits: they can be very small (see WL93 left) very sensitive to extreme high and low frequencies and usually have a crisper cleaner sound. They almost have no handling noise and are often preferred by world class vocalists over dynamic mikes. A little less robust than dynamic mikes so do look after them if you buy one.

**What's the difference between a unidirectional mike and an omnidirectional mike ?**

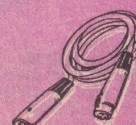

Easy: a unidirectional mike is only interested in sound coming from the front and sides of the mike head. It rejects sound from the rear thus picking up less room reverberation and feeding back easily. This type of mike is usually always preferred for vocals. An omnidirectional mike picks up sound equally from all sources in a 360 degree sphere. This is very advantageous for picking up sound from several different directions at one time eg: group vocals, string sections, cymbals etc but they are more prone to feedback. More suited to larger area miking and the studio.

**What's the difference between balanced mike leads and unbalanced mike leads ?**

A balanced mike cable contains two internal wires (one for the 'hot' signal and one for the 'return' signal enclosed by shielding. This shield intercepts random electrical signals like radio, transformer field hum etc and 'drains' them to ground. A balanced mike cable will deliver much cleaner, quieter performance especially over a long distance. Unbalanced cable consists of a single wire surrounded by shielding, but in this case the shielding carries the 'return' portion of the audio signal as well as protecting the inner wire from electrical interference, so unbalanced cables are easily affected by fluorescent lights, radio frequency even taxi's and CB radios.

**Unbalanced mike cable.** Cannon to 1/4 inch jack plug. These are more prone to interference. Use these only if you have no choice.

**Balanced mike cable.** Cannon to cannon. This type of cable offers better quality performance and should be used if possible.

**New!**

## Announcing the amazing.... Laney VC50-212 Combo

VC-50

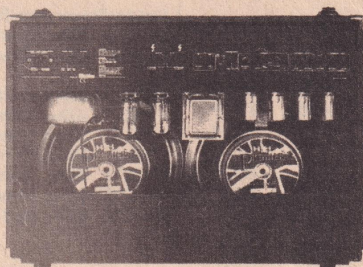

Optional GSP Extension  
Cabinet with 2-12 inch speakers

Imagine a guitar amp that could do everything you wanted it to. Could be so clean for warm jazz or country, snarl out a wailing blues tone, deliver a massive stack-style power chord or a tube soaked lead sound with blistering sustain and intensity. Imagine a single guitar amp that could do all this with a tonal quality to die for. Some amps can do some things well...the amazing new Laney VC-50 does everything well...really!

Imagine you've got 4 amps in one amp and imagine you can footswitch between each amp. Not only do you have 2 completely separate control panels...each panel has 2 separate channels...imagine the possibilities. This amp is truly revolutionary!

In addition to this you get 2 separate reverb controls and 2 separate effects loops (plus a 3rd that works across the entire amp). If you're in the market for a top quality all-tube amp that you have to hear to believe then please check out this new Laney. We have sold every single one we can get our hands on. 3 year Australia wide warranty. Call for a great cash deal or huge trade-in.

**VC-50 212 Combo \$2195**  
**GSP212PE Ext Box \$695**

All Alliance series amps like the VC-50 and Stack below come with a free FS-4 heavy duty 4-button footswitch.

2 of Laney's excellent new Premium Vintage 60 watt, 12 inch speakers are loaded in the VC-50 and the extension box pictured.

The Laney VC-50 combo has a bias selector that enables you to choose between using 6L6 tubes or EL-34 tubes. Now that's a clever idea!

*"The Laney gives a really bluesy Strat tone, even at low distortion settings. At higher sound levels the bottom end power with humbuckers is a revelation!"*  
- The Guitarist Magazine -

Rear shot of the VC-50 combo showing the open backed cabinet and Laney's new 12 inch Premium Vintage speakers. All Laney Valve combos and heads feature chassis-mounted tubes which offer longer valve life and stability than amps using cheaper circuit board tube mounting.

## Check out the stunning.... Laney VC30 Valve Combo

This is the ultimate portable 100% tube amplifier. 30 watts of pure tube magic with buckets of clean volume or snarly overdrive. Built in the classic tradition of the early Class A valve amps from the late 1950's the VC-30 mixes that classic tone with a modern preamp drive that really stings...it's a wee ripper! Loaded with 4 EL84 output tubes this amp has to be the loudest 30 watts you ever heard....but loud isn't everything. You want tone, lots of tone and you've got it with the VC30. Sparkling clean tones with sweet highs and smooth warm low end. This amp will keep any guitarist happy with it's combination of portability and power!

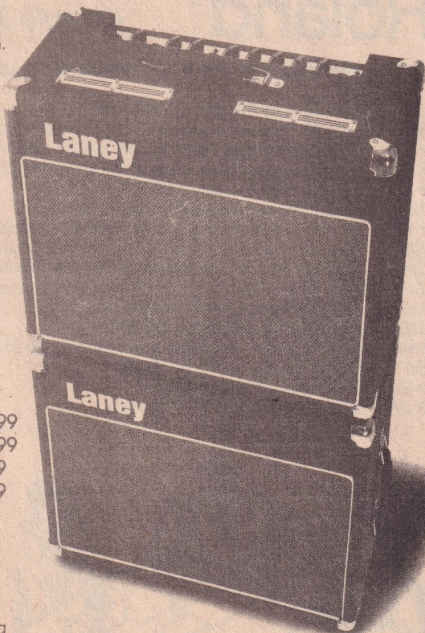

You also get channel switching from clean to very mean with an optional 2-way footswitch. The VC-30 is also equipped with an effects loop for your pedals or multi-effects units.

You also get the choice of a single 12 inch speaker model or a dual 10 inch speaker model. Also available are 2 optional extension cabinets loaded with a single 12 inch or two 10 inch speakers. This gives the player the option of the amp alone for small to medium sized gigs and if you need more punch for a larger room you just take along your extension cab. Very cool sounding!

Very cool looking!

3 year Aussie wide warranty.

**VC30 1-12 \$1299**  
**VC30 2-10 \$1399**  
**Extension box 1-12in \$379**  
**Extension box 2-10in \$399**

*"The VC-30 with it's marriage of traditional valve amp construction and ultra modern production engineering looks set for success."*  
- Guitar Magazine - UK

## Announcing the amazing.... Laney VH100R Head

Like the 50 watt combo above this new VH100R 100 watt valve head is blowing the competition right out of the water...it is sensational!

Imagine a head that can do anything with the richest tube tone you can imagine. It can be as crystal clean as you want, clean with nice crunchy edge to it or it can be a overdriven flame thrower. It sounds great with any guitar we tried Strats, Teles, Gibbo's.

Finally an all valve, quality head that will satisfy anyone who demands a stack on stage. The free 4-button footswitch allows you to take total control on stage.

3 effects loops plus dual reverb controls. Can be used with any speaker box from 4 to 16 ohms. DI output on the back, usable with your choice of EL34 or 6L6 output tubes. This is the ultimate guitar set-up!

3 year Australia wide warranty.

**VH100R Valve Head \$1995**  
**Vintage Quad Boxes \$1199**

*"The Laney blew us away"*  
Guitar Player Magazine USA

4 of Laney's excellent new Premium Vintage 60 watt, 12 inch speakers are loaded in the quad boxes above.

All Alliance series amps like the VC-50 and VH100R Head above come with a free FS-4 heavy duty 4-button foot-switch.

FREE MIKE!

**MT-4X 4-track**

Not only affordable and easy to use the Yamaha MT-50 4-track packs a lot of pro features and delivers a pro sound you'll be thrilled with. The others on the market just don't stack up. The main difference with the MT-50 is the excellent way it's laid out...somebody actually thought about it. They said..."How can we make it easy to use for beginners?" So all the controls, meters, record enable switches and faders are located in their corresponding channels, not scattered all over the place where you can't find them. You also get the ability to record on all 4-tracks at once...perfect for doing a live demo and still retaining control for mixdown. But what really sets the MT-50 apart from the other 4-tracks is the sound quality. It is simply remarkable for it's price!

Overdubbing and bouncing tracks is easy and simple to do. Within a few hours even first time users will feel at home and be recording their own music on the MT-50. You can record keyboards, drum machines, sequencers, electric guitars direct into the machine...no mike's necessary. And with the free mike you get with your MT-50 you can record vocals, acoustic guitars, piano...etc etc. You can record up to 10-tracks by "overdubbing" and "ping-ponging", you can add digital effects as you record, you can change the eq of what you are recording, you can sync your MT-50 to MIDI or a computer and you can play back your recordings through most home stereo systems. The Yamaha MT-50 is perfect for anyone wanting a well built, high quality 4-track for home. It's fun and easy to use and within an hour you'll hear results your friends won't believe. We can deliver your MT-50 anywhere in Australia quickly and safely with our famous 10-day money back satisfaction guarantee. 12 months Aussie wide warranty. Give us a call...in stock now!

## Roland®

**VS-880**  
Digital  
Recording  
Studios

**New!**

**\$3995**

Plus all the freebies listed below!

"64-tracks with no tape"

It was only a matter of time before 1990's technology delivered this incredible new product. The Roland VS-880 uses no tapes, it records sound digitally. Perfectly and with CD quality. You don't get 4 or 8 tracks...you get up to 64-tracks. You get an entire recording system capable of totally professional broadcast quality results. It is a sensation and it's now affordable to the home recorder. Check it out....

**Records like a dream**

The VS-880 provides you with 64 recording tracks. No more track worries ever! The quality is absolute perfection. No hiss, no wow and flutter and no crosstalk.

**The digital advantage - total editing freedom**

Since you're not using tape, you get the advantage of powerful digital editing over your recordings. You can cut, paste, move, insert or delete any musical segment in seconds...it's a breeze. Total time control is also yours. Ideal for jingle writers or sound track writers. Compress or expand playback to a time length you can specify from 75% to 125% of the original...it's so easy. Tape just can't do this!

**Easier to edit than ever before**

Insert a 'marker' any time in a Song. Since the VS-880 is digital you can find any marker instantly. You can actually put up to 1,000 markers per Song. All virtual track performance data can be stored and named as a Song, complete with all mixer effects, mark and locate settings. Sounds complicated but it isn't...it's a breeze to use.

**Full-featured digital mixing**

The VS-880 digital mixer features eight + six inputs, eight recording busses, one stereo AUX send and one stereo master output. A coaxial digital input accepts a stereo digital signal. To plug in a mike or instrument there are four audio inputs (jack plugs and RCA) You can record up to 6-channels at once including four analog and digital stereo source onto four tracks. Using the digital coaxial output you can archive your final mixes to DAT tape...it's so fast and easy!

**The power to mix the way you want**

Tell the VS-880 to be an 8-channel mixer/recorder or a 14-channel mixer capable of mixing 6 input sources and 8 recorder tracks at once. You can sync sequence data from an external midi system along with 8 recorded tracks for simultaneous playback and mix-down right on the VS-880; no submixer needed...it's brilliant. The VS-880 also has powerful built-in parametric EQ. All your tone changes are shown on the display for instant confirmation.

**Musician oriented mixing makes all the difference**

Every mixer parameter setting including internal routing and EQ settings can be captured as a 'snapshot' scene. Up to 8 scenes can be stored and switching scenes is as simple as touching a button. Fader movements can be recorded with an external midi sequencer for fully automated mix-downs.

**Use the storage media of your choice**

The VS-880 is equipped with an internal IDE and standard external SCSI interfaces to give you extensive storage flexibility. Your storage options are entirely up to you...internal hard drive, external hard drive, external SCSI, Zip drive, Jaz drive etc. Please call for more information...we know what you need to get things running.

**Want studio effects?**

Eliminate the need for external effects by installing the optional effects board. This powerful option provides 2 independent stereo multi-effects processors featuring 20 patches of reverbs, delays, choruses, eq, flangers, overdrives, distortions, amp simulation etc. Just plug in your old electric guitar, dial up the sound from hell in 20 seconds and press record. It's really that easy. Optional effects board \$695 extra. Fitted free.

**Operation designed for musos to understand**

The VS-880 is as easy to use as the other 4-tracks on this page or it can be as sophisticated as a \$2 million mega-studio. You can just plug in your old mike and record your voice or sync it up to your computer via MIDI. Don't be scared of this new machine. Once you've spent an hour or two with it...you'll never ever go back to tape!

**Here's the deal....you pay \$3995 for the VS-880 and you get.....**

- \$800 540 meg internal hard drive fitted!
- 30 minute VS-880 instructional video!
- Australia wide delivery!
- Australia wide 10-day money back guarantee!

# Maton

"Celebrating 50 years of handcrafted excellence"

EM225C

## Maton M225 Handmade In Australia I

You just cannot buy a better guitar for the money. Handmade in the traditional way from the finest tone woods available. Solid spruce top for a rich, balanced tone, maple back and sides for brightness and projection. You notice the difference immediately with a volume and 'liveness' the others just don't have. The Maton neck is sensational, the action is low without any buzzing. A guitar for anyone who loves the instrument and wants something to own, keep and enjoy for years. Choose from 4 styles. Natural satin finish. Case not included.

|                                    |        |                |

| M-225C As above with cutaway       | \$845  | Tax Free \$699 |
| EM-225 Standard with pickup system | \$1045 | Tax Free \$874 |
| EM-225C Cutaway & pickup system    | \$1145 | Tax Free \$957 |

All available left-handed for 10% extra.

**Pickup system:** The Maton pickup system with preamp on board was designed in conjunction with Tommy Emmanuel. This excellent system delivers a pure natural acoustic sound to your amplifier or PA. You have control over volume plus a 3 way eq system. The pickup itself is mounted under the bridge saddle and provides a perfectly balanced, top quality sound.

EM325C

## Maton M325 Handmade In Australia I

The next model up with a AA grade solid spruce top for a very slight sound improvement over the 225. There is something about Maton quality that can't be described well in words, it's only when you pick one up, feel how light it is, how resonant and how deep the tone is. This is how a handmade instrument of this quality gives you the value for your money. I think the 325 is a better sounding acoustic than some costing over twice the price and best of all they're made in Australia and use Australian timber where possible. You'll just love it!

|                                    |        |                 |

| EM-325 Standard with pickup system | \$1295 | Tax Free \$1083 |
| EM-325C Cutaway & pickup system    | \$1395 | Tax Free \$1167 |

All available left-handed for 10% extra.

**The Maton Finish:** The Maton natural satin finish is a special pre-catalysed nitro-cellulose finish that is more expensive than other finishes but is so hard and thin that it protects the timber without choking or retarding the tone of the wood. Maton could use a cheaper quicker finishing process but they won't!

EM525 Front

## Maton M525 Thin bodied Acoustic Electric

The same quality construction as the 325 series above but this model has been designed for stage use where a thinner bodied guitar is easier to hold and play plus rejects feedback better at higher volume levels. Don't think that the thin body means a thin tone. This guitar is loaded with a tone rich sound and a good deal more natural acoustic volume than any other slim bodied acoustic I have ever played. From the front it looks like a normal guitar from the side you can see it's a couple of inches less deep. Same pickup and preamp system.

### What else makes a Maton sound so good?

Careful wood selection and seasoning, cross pattern bracing for maximum strength and tonality, dovetail neck joints for maximum rigidity and sound transfer...but the real secret is Matons' people. Everyone at Maton is passionate about making the finest quality handcrafted guitars in the world.

ECW80C

## Maton CW-80 Handmade In Australia I

The CW-80 was introduced in 1967 and over 8000 of these sensational guitars have been produced. Solid AA grade spruce tops with solid maple back and sides for a wonderful big warm tone with volume. This guitar will satisfy the fussiest acoustic player and is equally at home on the worlds concert stages or in your bedroom. One strum and your hooked for life because this is a guitar to own and enjoy playing forever. It looks wonderful, it sounds exceptional and it's handmade in Australia. Congratulations Maton on 50 years of quality.

## GUILD Guitars...they're back

It all started in New York in 1952 when 5 luthiers left Gibson to fulfil an artistic vision. With more than 200 years of experience between them, they believed they could create instruments with the same passion and devotion of the medieval European craft guilds...hence the name. Each of these five luthiers specialised one part of these new guitars. Together, their single minded dedication gave birth to acoustic and electric guitars that immediately became renowned throughout New York city. The world soon followed. Today Guild are hand-making better quality guitars than ever before with their acoustic and jazz guitars considered world class instruments.

## Epiphone Les Pauls

Special 2 \$349 add \$99 for a case!

Fantastic new model at an unbeatable low price. This guitar has plenty of humbucking grunt and sustain. Bolt-on neck. Choose from high gloss black or sunburst.

Studio Standard \$699 add \$99 for a case!

Another fantastic new model that looks, feels and sound like the real thing. 2 superb sunburst finishes. Great necks with really nice low fast actions. Powerful sustain & harmonics.

Standard \$850 add \$99 for a case!

Solid set-neck model built just like a real gibbo but for a 3rd of the price. Stunning guitars in black plus 3 different sunburst finishes. Also available lefthanded, same deal.

Standard Translucent \$899 add \$99 for a case!

New colour range for the Standard featuring 5 stunning see-thru finishes. These sensational guitars look like real Gibsons costing \$1,000's. Call for colour availability today!

Standard Metaflake \$950 add \$99 for a case!

6 new and totally unreal Metaflake finishes make this guitar really stand out from the rest. If you're bored with sunburst and black and want something more outrageous...it looks cool!

3-pickup Custom \$999 add \$99 for a case!

This guitar oozes class and quality. Loaded with 3 powerful humbuckers that are gold plated. The gold looks amazing on the high gloss black body. What a cool looking guitar, a copy of the original Gibson Black Beauty in the rare 3-pickup version from the 1950's. You'll fall in love with this one mate. I did!

## More Epiphone guitars in stock now!

- The SG \$725 add \$99 for a case!  
Deep cherry red, this SG is built in the same quality way as a real Gibson. 2 powerful humbucking pickups of course.
- Lefthanded version a few bucks more. Get on the phone.
- Nighthawk Standard \$799 add \$99 for a case!  
Another fantastic new model that looks, feels and sounds like the real thing. 2 superb sunburst finishes. Great necks with really nice low fast actions. This is a really nice looking axe.
- Sheraton \$1195 add \$130 for a case!  
One of the classic 1950 semi-acoustic Epiphones recreated just like the real thing. 2 humbuckers. Lefthanded \$50 more.
- Joe Pass Emperor \$1295 including case!  
Excellent jazz guitar developed with Joe before he died last year. 2 humbuckers, floating wooden bridge, great jazz tone
- Emperor Regent \$1395 add \$130 for a case!  
Bigger jazz bodied guitar with floating humbucker in neck position. Classic 1940's model faithfully recreated. Cool!
- Casino \$1199 add \$130 for a case!  
The original Casino was made famous by the Beatles in the 60's, hollow bodied, dual cutaway, 2 pickups, very cool!
- Sorrento \$1299 add \$130 for a case!  
My favourite 1950's guitar recreated. Single sharp cutaway with 2 pickups, classic original Epiphone model now available again. Looks amazing in Orange or Natural. Anyway you've got 'em if you want 'em. Just get on that phone!

### Introducing the sensational DT-X Interactive Electronic Percussion System

Coming soon the most practical and affordable electronic percussion system to date. Imagine being able to play electronic drums just as you play your acoustic drums. Play rolls, snap powerful rim shots, reach up and choke the cymbals, play as quiet as a whisper or pound with a thunderous roar ! Now imagine being able to play electronic drums beyond the limits of your acoustic drums. Layer up to 5 sounds in a stack or alternating pattern. Trigger keyboard sounds to create your own music. Have fun practising with on-board teaching functions...yes, it actually teaches you to play ! Check your timing with the 'groove check', test your skill with 'pattern record'. Play along with exciting songs or create your own songs on the kit. The on-board 5-track sequencer is capable of recording your hits plus MIDI data from external MIDI keyboards...at last live drums that interact with MIDI. With the new DT-X Percussion System you'll never run out of sounds. The DT-X module contains 868 explosive drum and percussion sounds, plus effects, plus 128 General MIDI keyboard sounds. There are 64 drum kits instantly accessible from jazz to hip-hop, from Industrial to Studio. This kit kicks hard...imagine 119 kick drum sounds, 250 snare sounds, 176 tom-tom sounds, 105 cymbal sounds, 103 percussion sounds & 115 sound effects...all in your audiences face through your PA.

You get the whole kit as pictured (except kick pedal), you get a good solid rack to mount everything on, the 2 triangular cymbal pads allow the playing of 3 independent sounds, or two sounds that can be choked for realism. The 8 inch diameter round pads pickup every subtle nuance of your playing and with dual zone capability you can trigger a rim shot or choke voices etc. This is an incredible product and due in stock soon. # EDITOR'S CORNER

## What's happening !

Firstly, thank you ALL for your orders. We are busier than ever with our customers growing more and more confident with placing mail orders and phone orders from every corner of the country. We will continue to provide you with bigger and better catalogues to make it even easier to do business with Venue Music. Our new 1 800 free-call line to the Parramatta store has been flat-out since it was connected so if you have trouble getting through to one number, try the other.

Once again I thank you all and keep those orders flowing in ! We have had a HUGE start to 1996 with quite a lot of exciting new product coming on line and selling well. Unfortunately there have been some delays to a few **Marshall Valvestate** models particularly the stereo chorus versions they should be coming in July-August now. The new Marshall VS-100R is selling extremely well at \$899 and again, after being a bit short on stock we have something like 160 units coming in between now and the end of the year. Check out the new **Digitech RP-6** on page 5, it has replaced the RP-5 and is now complete with a rocker pedal for wah, whammy, etc. Don't overlook the excellent **Korg AX-30G** if you're looking for a red-hot guitar multi-effects unit. We still have a few left at \$599 saving you a huge \$300 (see page 2). The new **Lonestar USA Strats** should be here soon and we have just had the first new **Tele Pluses** come through, they've been delayed also. It's interesting that **Fender & Gibson** and most other quality makers are unable to keep up with the current world demand for guitars. Our Gibson stocks are very buoyant and we are prepared to negotiate hard to make you happy if you're in the market for a new Gibson. Between now and Xmas we have forward orders in for over 300 **Epiphone** electrics so stocks of these will be pretty good as well. Call ! The sensational new **Roland VS-880** (see page 21) has been an incredible seller since we released in the last catalogue with over 12 sold already. Our current deal is even sweeter and includes an excellent 35 minute video on how to use the unit. **MIDI software** freaks have got to check out the new **Steinberg VST**, our keyboard people have gone ape over this incredible package described on page 19. The **Virtual Studio** is here on your computer screen....it's truly amazing !

Some of you may have already noticed that **Fender** have increased the warranty on many amps and sound products to a huge **5 years** (up from 3) this warranty can be transferred from one owner to the next. Good on you Fender !

Guitarists need to have a close look at the new **Laney** amps we've got on page 18. The VC-50 in particular is one amazing 4-channel beast with a sound to satisfy almost any player doing any style of music from country to industrial metal. Possibly the best new amp on the market.

**IMPORTANT:** Please note that all Sydney telephone numbers are changing from July 1st, you will need to put a 9 in front of many existing Sydney phone numbers. This does **NOT** affect our free-call 1 800 numbers, they remain the same. It only affects our local phone and fax numbers.

Oh, by the way, I'm now a proud Dad...it's a boy. He's great when he's asleep. Only joking. He's great all the time. See ya next catalogue or in the store. Take care and if you need help, just pickup the phone.

## "Venue Scoops Yamaha & Marshall Awards....Again "

Venue has once again been recognised as the nations largest Yamaha dealer and Marshall dealer. These awards were first won by us way back in 1984 when they were introduced and we have been very consistent winners since then. We wouldn't be able to take out awards like this if it wasn't for all our great customers supporting us.

Thanks to all of you and don't worry we promise to keep bringing you top deals and service so we can keep on top and win again next year and the year after.....

....excuse me Robert.....

"Can I just ask you a few questions about how to buy from Venue Music and what happens with delivery and warranty after the sale ?"

## "How does my order get sent to me ?"

Your order is important ! It will usually leave our warehouse the same day we get it...we do not muck around with orders. All orders are checked and carefully packed by our despatch department. Your order will either be sent by **Australia Post** (if the order is small like strings & leads etc) or by **Certified Post** (if the order requires a signature upon delivery) or for larger orders we will send by **Comet** or **IPEC** road freight (signature required). Most capital cities are usually serviced overnight. This means that if we send your goods today, you will most likely get them the next day.

I give a 100% guarantee that your goods will arrive completely safe and sound...yes, even expensive fragile guitars and amplifiers. Please do NOT worry about getting your order delivered. We've been doing this for 15 years and we're good at it.

## "What if I don't like what I buy ?"

Good question and we are asked this all the time. If you don't like what you bought...you can send it back for a full refund of the purchase price (conditions apply) No hassles, no arguments. Because we are all muso's we insist that you are 100% satisfied with your purchase. We fully understand that it's hard to buy something like an expensive Fender or Maton for example without playing it or an amplifier without hearing it. But please relax, we gladly offer all our phone or mail order customers a 10-day money back satisfaction guarantee...from the day you receive your goods (see inside front cover for details) You can buy with confidence.

## "I live in Tasmania, what if my new amp breaks down ?"

No problem. It doesn't matter where you live because all new goods we sell are covered by the Australia Wide Manufacturers Warranty. In most major centres there are competent and authorised repair facilities. If you do have a problem just give us a call and we'll give you all the information needed to get you up and running as quickly & painlessly as possible.

## "How do I buy things Duty Free ?"

If you're travelling overseas (goods must be taken with you) you can buy most items from us Duty Free...saving up to 40% on some items. All you need to do is visit our Druff Street, Sydney City store with your valid ticket your passport & money. Duty Free is only available to personal shoppers.

## "How come you sell things so cheap ?"

It amazes me when people ask me this. Everyday for 15 years we are asked to make things cheaper, and when we do...we get asked.....

## "How come it's so cheap compared to the other shops ?"

We try hard to make things as affordable as possible and because of our buying power over our competitors, we can usually sell goods for a lot less. We are often astounded at the prices people pay elsewhere.

**IMPORTANT:** Please remember that we will never be undersold !

People ask me on the phone everyday... "What's your best price ?". My answer to that question is always.... "Whatever we have to do to make the deal".

This means that even if you think you've been quoted a great price from another shop, or seen a price advertised from another shop...we will beat it ....and usually with free home delivery included ! Please always call us before you buy something. We can usually make you happy with a better deal. After all it's your money and it's just a quick free phone call to check. Please ask for me in person...Robert Bramley.

## "How can I buy things at the Tax Free prices ?"

You can't unless you are exempt from paying Government Sales Tax. In order to buy without paying the Govt. Sales Tax of 23% you must qualify for tax exemption. Only schools, churches, TAFE's, universities & some community service clubs etc are not required to pay this tax. You and I pay this tax on almost everything we buy. If you want more information on Sales Tax exemption please call our City store and ask.

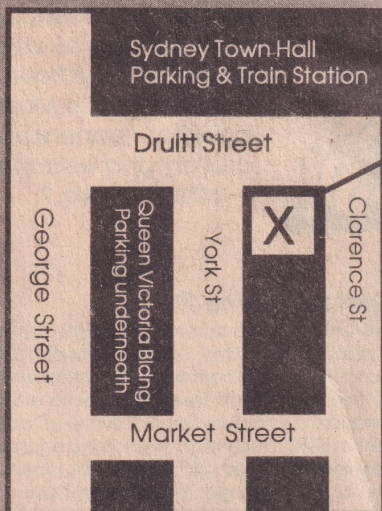

## "How do I buy something you don't have in your catalogue ?"

We carry an enormous range far bigger than we can fit in this 32 page catalogue. If you want a product you don't see advertised just pick up the phone and call us. We probably have it in stock for less ready to go ! The difference with us is... We want your business from anywhere !
